How to Install your REINS Program

Please note: you may need Administrator privileges on your computer before beginning installation.

Installation:

After you have purchased and downloaded a .zip folder or the USB flash drive version from the Extension Store:

a. Digital version - right click and "Extract All…" then select the location for your software to be saved. Open the extracted folder and double-click the file setup.exe to begin installation.

b. USB flash drive version - insert into your computer, open the folder to view the files, and double-click the file setup.exe to begin.

Operation:

Once installed, the REINS program will be added to your Programs Menu.
